

ST STATEMENT
13 FEBRUARY 2026

REQUEST FOR PROPOSAL FOR NEW GENERATION CAPACITY FOR PENINSULAR MALAYSIA FROM THE YEAR 2025 TO 2029 (NEWGEN25)

SELECTION OF SUCCESSFUL BIDDERS

Putrajaya, 13 February 2026 – The Energy Commission of Malaysia (Suruhanjaya Tenaga - ST) has launched the NewGen25 tender programme in May 2025, the first competitive bidding for thermal power plant held since 2012. Requests for proposals were invited for both existing and new generation capacity, to be commissioned in stages between 2026 to 2028. The capacity requirement is intended to support the anticipated growth in electricity demand, primarily from new data centres and to ensure the stability of electricity supply in the system.

NewGen25 has successfully attracted the interest of existing and new industry players. The proposals were submitted in two (2) categories, which are:

1. short-term available capacity including existing, expiring or expired power plants, and
2. long-term new capacity for baseload or peaking requirement.

The process was carried out in accordance with the international competitive bidding standard.

ABOUT THE ENERGY COMMISSION

The Energy Commission (Suruhanjaya Tenaga - ST) is a regulatory body responsible for regulating the energy sector, particularly the electricity and piped gas supply industries in Peninsular Malaysia and the Federal Territory of Labuan. The Energy Commission ensures that the provision of electricity and piped gas to consumers is secure, reliable, safe and reasonably priced.

ST would like to notify that the bidding has concluded. The following is the list of the successful bidders:

i. Project (Category 1)

- Prai Power Sdn Bhd (350MW)
- GB3 Sdn Bhd (429MW)
- Segari Energy Ventures Sdn Bhd (1,303MW);
- Stesen Janakuasa Gelugor (310MW);
- Stesen Janakuasa Putrajaya (249MW);
- Stesen Janakuasa Tuanku Ja'afar (PD1) (703MW);
- Panglima Power Sdn Bhd (700MW);
- Kuala Langat Power Sdn Bhd (675MW); and
- Pengerang Power Sdn Bhd - additional capacity (150MW).

ii. Project (Category 2)

- Consortium of TNB Power Generation Sdn Bhd and Aurora Power Generation Sdn Bhd (new 1,400MW combined cycle power plant in Paka, Terengganu).

The Letter of Notification on Technical and Commercial Terms has been issued to all the successful bidders.

ST would like to thank all the participants in NewGen25 for their commitment and interest in the programme.
