

APPLICATION TRANSITION TO REGISTERED ENERGY MANAGER (REM)

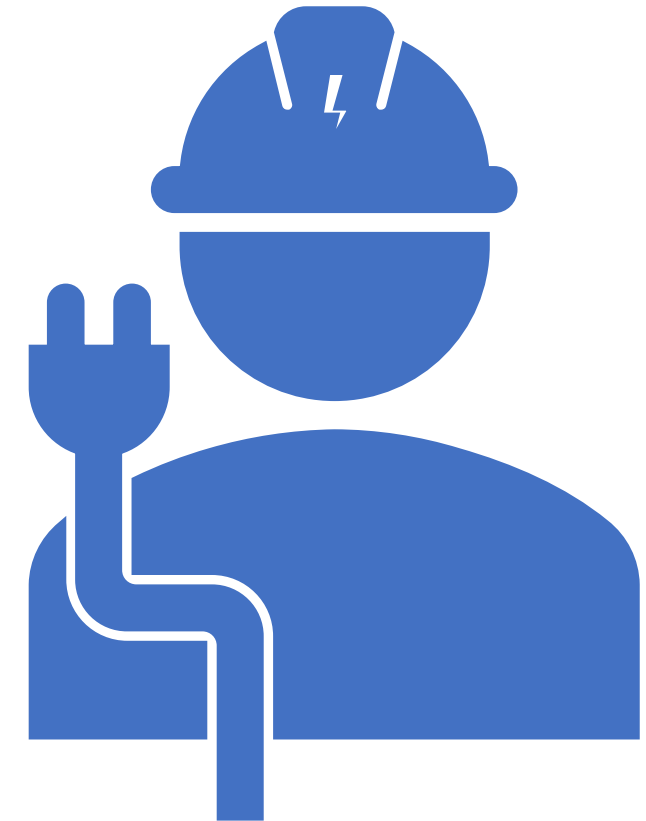

Section 71. (1) EECA

“Any person who holds a valid certificate of registration as an electrical energy manager issued under the Electricity Supply Act 1990 [Act 447] before the date of the coming into operation of this Act shall, on the date of the coming into operation of this Act, be deemed to be a registered energy manager under this Act and may carry out the functions and duties of a registered energy manager under this Act until the date of the expiry of the certificate of registration, provided that such person has **made an application** to be registered as an energy manager under this Act.”

Explanatory Note

1. All Registered Electrical Energy Managers (REEM) under the Efficient Management of Electrical Energy Regulations (EMEER) 2008 will be eligible for certification as Registered Energy Managers (REM) Type 1 under the Energy Efficiency and Conservation Act (EECA) 2024, provided that:
 - ❖ They hold a valid Certificate of Registration under EMEER 2008 after the enforcement of EECA.
 - ❖ They have applied to become an REM under EECA 2024 to the Energy Commission.
2. Upon compliance with both requirements, registration as a Registered Energy Manager Type 1 under the EECA shall be affected. The expiration of the REM Type 1 certificate shall coincide with the expiration of the REEM certificate.
3. The applicant may also seek to obtain REM Type 2 status following registration as REM Type 1, contingent upon completing and passing the assessment conducted by the Energy Commission (ST).

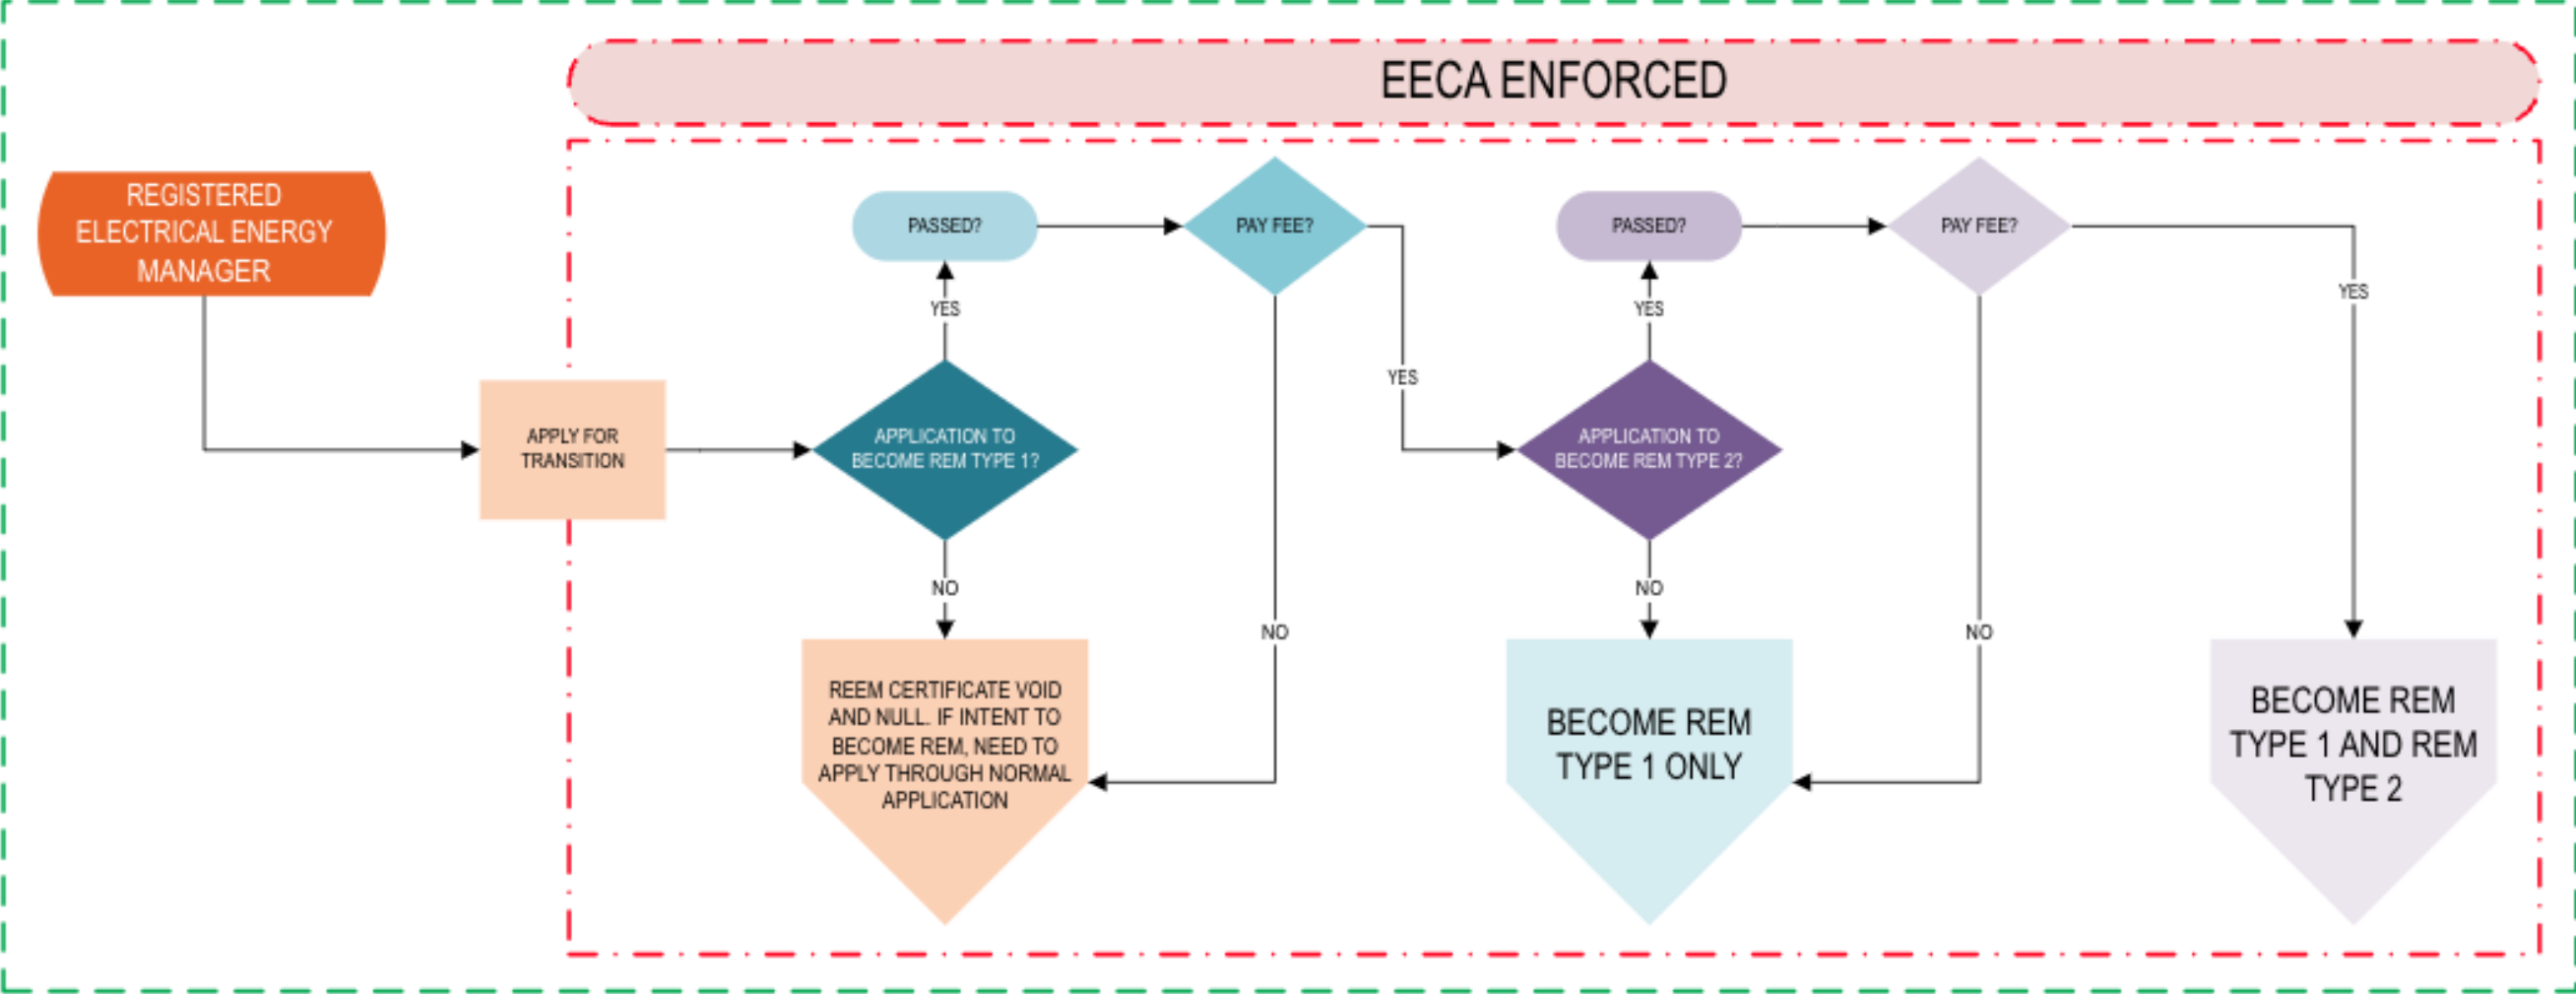

Consequence of Not Applying for Transition To REM

If no application for renewal as a Registered Electrical Energy Manager was made or submitted, then an application for certification as a Registered Energy Manager must be filed in accordance with the requirements of the Energy Efficiency and Conservation Act (EECA) 2024, under subsection 26(c).

This subsection states that 'he fulfills other prerequisite requirements as may be determined by the Commission, including **requirement for training.**' Consequently, the applicant is **required to complete a training program** at an institution registered under EECA 2024 before certification as a Registered Energy Manager can be granted."

Transition Procedure

REEM CERTIFICATE MUST BE VALID

Preparation Before Applying for Transition

Valid REEM Certificate. *Suggest March 2025 above*

Application for Transition 2/11

- Read, understand and agree to the terms of condition.

TRANSITION APPLICATION FROM REEM TO REM

Application Eligibility and Purpose

This application form is exclusively for:

- Current Registered Electrical Energy Managers (REEM) under the Efficient Management of Electrical Energy Regulations (EMEER) 2008.
- REEMs with valid certificates after the enforcement date of the Energy Efficiency and Conservation Act (EECA).

Document Preparation

Before beginning your transition application, ensure you have prepared the following documents in PDF format:

- One (1) PDF file of your Identification Card (I/C), both front and back.
- One (1) PDF file of your Degree Certificate/ ST Competent Certificate/ Professional Engineer Certificate.
- One (1) PDF file of your REEM Certificate.
- One (1) PDF file of your latest REEM Renewal Letter (*if applicable*).

Important Renewal Date Information

- The renewal expiry date must be set after the EECA enforcement date. While the exact date of enforcement is not yet available, a minimum expiry date of 01 January 2025 is required.
- If your expiry date is earlier than this, you should first submit your REEM renewal application through ECOS. It is recommended that applicants have at least six (6) months remaining after the EECA enforcement date.

Application Submission Guidelines

- Ensure that all information is entered in CAPITAL LETTERS and matches your official documents. Incomplete or incorrect entries may result in your application being rejected, requiring a resubmission if your REEM Certificate is still valid.
- Note that this form can only be submitted once. Resubmission is allowed only if your initial application is declined. Given the high volume of over 2,000 REEM certificates being transitioned, resubmission may take time. Therefore, please review all entries carefully before submitting.

Disclaimer and Contact Information

- The Energy Commission will not be held responsible if you are unable to transition to REM due to a declined application or if resubmission is disallowed because of an expired REEM Certificate.
- If you have any questions, please email rem@st.gov.my.

I have read the terms and agree to the terms of service.

APPLICATION FOR REGISTRATION OF ENERGY MANAGER TYPE 2 AND APPLICATION FOR PRACTISING CERTIFICATE OF REGISTERED ENERGY MANAGER TYPE 2

Current REEM may transition to become REM Type 2 directly provided they passed the assessment set by the Commission. Procedure to transition to REM Type 2 are as follows:

- Apply with the Commission to become REM Type 1
- Continue application to apply as REM Type 2
- ST calls for the assessment
- If passed, the REEMs will become REM Type 1 and REM Type 2 simultaneously
- If failed, the REEMs will become REM Type 1 only

Would you like to apply as Registered Energy Manager Type 2?

× Clear choice

Yes - Need to passed assessment

No - Will become up to REM Type 1

You may only retake Registered Energy Manager Type 2 Assessment for up to one (1) time only at a date and time specified by the Commission.

I agree to the terms of service.

I also agree to apply for Practicing Certificate of Registered Energy Manager Type 2

I agree to the terms of service.

I acknowledge and understand that the total I need to pay is RM190.00 if passed the REM Type 2 Assessment:

-RM30.00: Processing fee for Application Practicing Certificate of Registered Energy Manager Type 1

-RM30.00: Processing fee for Application Certificate of Registration of Energy Manager Type 2

-RM30.00: Processing fee for Application Practicing Certificate of Registered Energy Manager Type 2

-RM100.00: Issuance fee for Practicing Certificate of Registered Energy Manager Type 2

Salam and Good Day,

APPROVAL EMAIL

We are pleased to inform you that your submission has been **approved**. Next, the Commission will send an email regarding the fee payment before issuing the certificate. In the meantime, please retain this email and await further instructions from us.

Please be informed that although we have accepted this application, the applicant must ensure that their REEM certificate remains valid beyond the EECA enforcement date. In the event that the REEM certificate expires before the issuance of the new REM certificate, the Commission will decline the transition application. Therefore, kindly take note of both your REEM certificate's validity and the EECA enforcement date.

We recommend that your REEM certificate have at least six (6) months of validity after the EECA enforcement date.
