# South East Asia region will face widening supply-demand gap ~ 10.7 bcf/d in 2030

Source: (1) Wood Mackenzie, PETRONAS

# PGB is an infrastructure company that provides access to regasification terminal (RGT) and gas pipeline

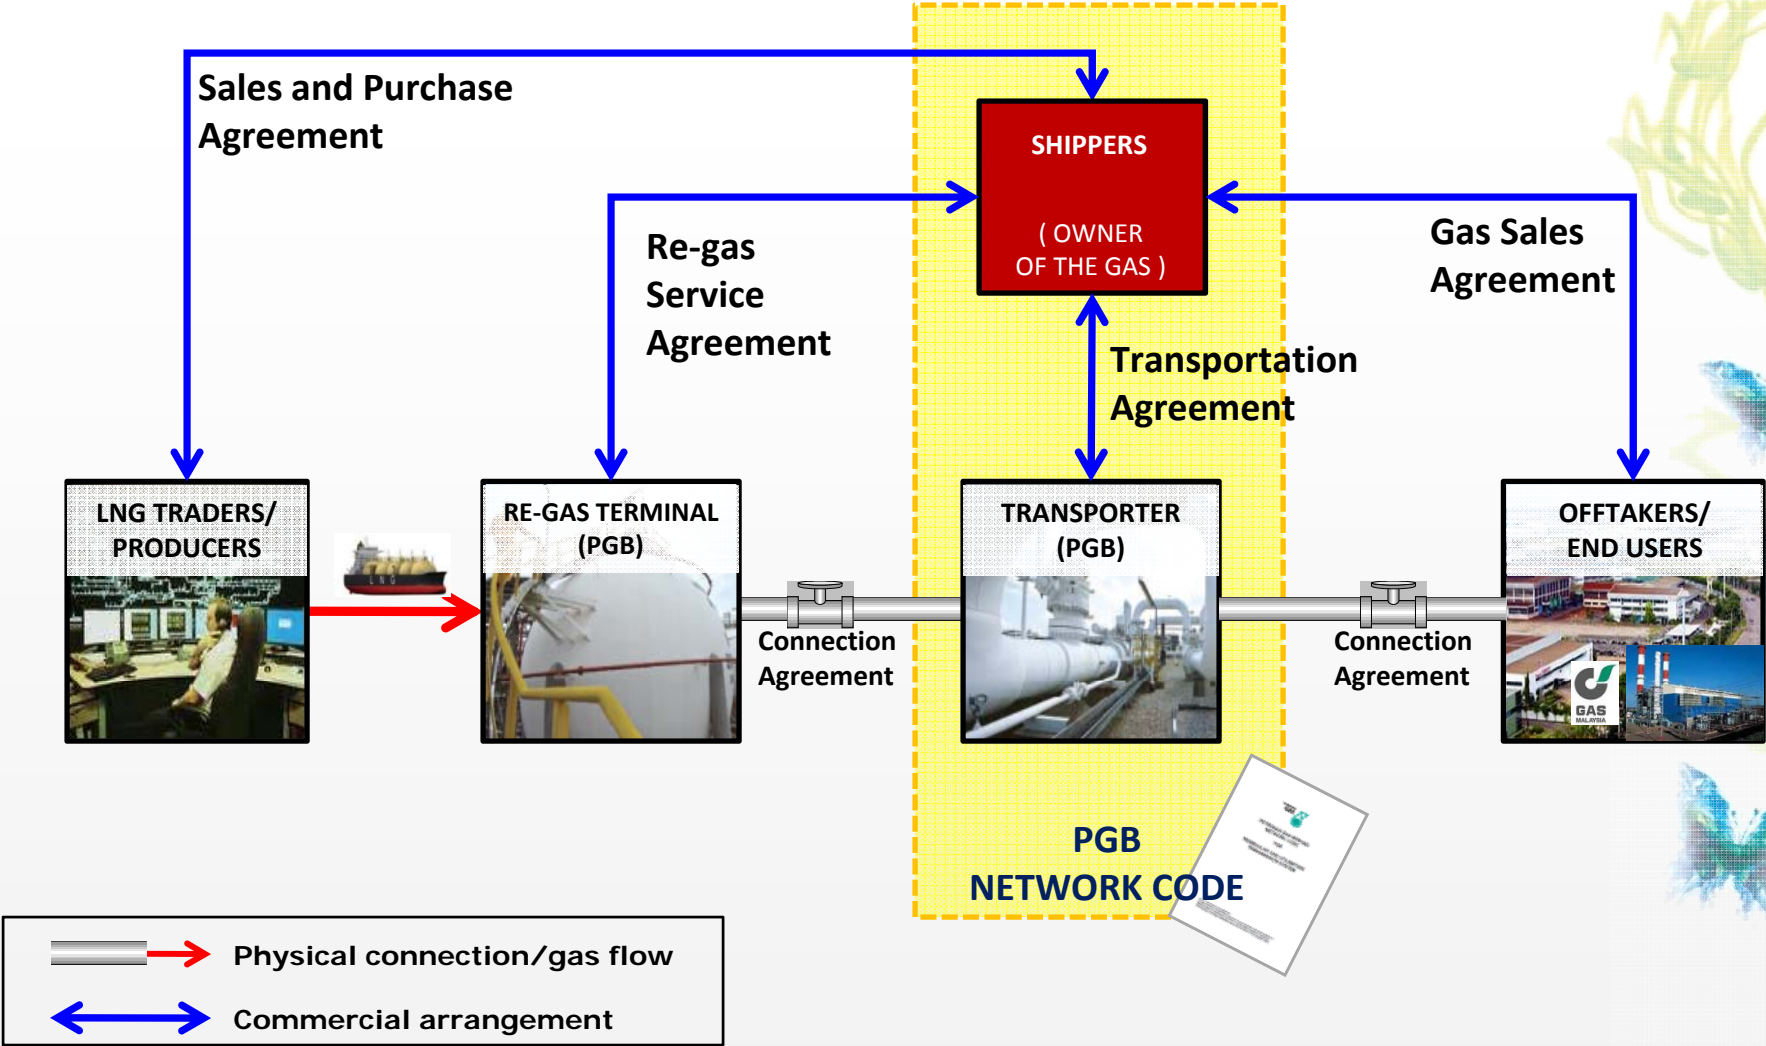

- Petronas Gas Berhad (PGB) owns the gas pipeline and RGT
- PGB provides capacity in the gas pipeline and RGT.
- PETRONAS is the anchor user
- PGB do not own PETRONAS' nor any other users' gas molecules
- Capacity reservation tariff is charged to PETRONAS and other shippers for use of PGB facilities

- Kuala Lumpur Pavilion Sdn Bhd (KLPSB) owns the Pavilion shopping mall
- KLPSB provides rental space for shopping outlets
- Parkson Berhad is one of the anchor tenants in Pavilion
- KLPSB does not own merchandise in Parkson nor in any other shopping outlets
- A rental fee is charged to Parkson for use of KLPSB asset/facilities

# The TPA model allows any party to bring in gas from across the world thus contributes toward security of gas supply to Malaysia

THANK YOU

A World Class Gas and Utilities Company
